Remark: Some products may not be available in all territories. Please talk to your customer service representative.

The data in our product information sheets are based on our experience and careful investigations, and correspond to our present state of knowledge. We are, however, not able to examine and influence in detail the varying conditions for usage and materials, and those at premises where products are to be used. For this reason, we can only provide general information on usage. The quality of the work depends on expert assessment of the premises where products are to be used and how they are in fact employed by the user. In the case of doubt, the latter is obliged at all times to test the compatibility of the material to be treated with the Buzil product on an inconspicuous area or to obtain relevant advice on application technology. Liability for incomplete or incorrect data in our product information sheets shall only be assumed in cases of negligence caused by gross negligence or intent; any claims arising from the Product Liability Act shall remain unaffected. All previous product information shall lose its validity through the above listed product information.

Note

- The correct dosage saves costs and protects the environment.
- *Dosage according to EU ecolabel criteria: Apply undiluted to the WC or urinal if required.
- Light soiling: 50 ml / 10 l; normal soiling: 180 ml / 1 l.
- Original bottle can be easily refilled from the practical canister to save packaging waste.
- Do not apply to lime-bound natural stones such as marble, Solnhofen slabs, travertine, shell limestone.
- Do not apply to aluminium, painted surfaces and acrylic glass.
- Do not mix with other cleaning agent concentrates or cleaning products.
- Changes or variations in colour of the product do not impact on the quality. The product image may differ in colour and shape from the original.
- **Safety:** Hazard statements and safety precautions can be found in the relevant safety data sheet, which is available at www.buzil.com.
- **Storage:** Always keep containers closed. Store at room temperature in the original container. Consume opened containers within 9 months.
- **Environmental:** Feed residual emptied containers to the dual system. For detailed information see environmental information.
